Experience Exceptional Communication

Lifesize Room 220 gives you the highest level of quality available today—Full HD, standards-based 1080p30 for the highest resolution on the market and 720p60 for the best motion handling with lower latency.

Ideal for large meetings and conference rooms, Lifesize Room 220 comes standard with an embedded eight-way continuous-presence multipoint bridge showing four visible sites, complete with transcoding and all-digital I/O. Plus, Lifesize Room 220 has a point-to-point throughput of 8 Mbps. And the compact, sleek unit is less than half the size of comparable solutions.
